POWER and MORE POWER!

When military men call for greater power they mean International Trac-Trac-Tank, planned and engineered to do the most exciting operations possible, ready made for the job. The needed machines are selling off the assembly lines, in factories long since equipped and tested for production and operating at capacity.

For many years International Trac-Trac-Tank has proved its power, economy, and value in the service of Agriculture and Industry. That's why they are chosen now to aid their might against the Armed Forces of the enemies.

On military days the frontier and interior of these big countries is

FOR MORE PRODUCTIVE FARMS AND MORE EFFECTIVE ARMS

replaced with agricultural service centers—fire-and-fuel charged for air power! Undoubtedly you'll find the same great combination of relentless power and enduring economy that makes International Trac-Trac-Tank famous wherever land work must be done... for more productive farms, and more effective arms.

It will continue to be this Company's task to supply all possible power, fire and fuel, for arms—for the greater strength and security of the Democracies.

Propaganda

EVIDENCE is multiplying that Canada has yet to learn how to fight an effective war on the propaganda front.

Apparently many Canadians—some of them prominent of high authority—still think of propaganda as being some sort of silent weapon which it is not quite even to use.

Propaganda is an essential. It is necessary when it takes the form of lies spread by the enemy to undermine our own or other's faith in the rightness of our cause; the statements of our strategy or will to victory. It can be effective when it is used by government to sustain the truth about our people.

But propaganda which takes the form of objective statements of fact is a vital weapon in the arsenal of modern war. The true offensive comes to the enemy at the front.

But truth, to be effective, must be made known. And the indications are that we still have a long way to go toward making the truth about Canada's war effort even as it stands to a majority in the United States.

Latest evidence bearing on the point comes from E. A. B. Shultz, Washington editor of the *Washington Daily News*, who, according to Mr. Shultz, is a lot of errors which occurred on the propaganda front in Washington in one week.

The Washington *Daily News* published a story concluding that Canada has got a mighty bad military service. The article was printed by the *Post* without comment.

Dr. Gregory Meier, head of New York's School of Journalism, told the *CBS-Britisches Military Affairs Committee* that young Canadian girls for four months of training and are called upon for cutting the hair.

John L. Lowenthal the Rivers and Harbors Committee of the House of Representatives said that Canada is the last but the India claimed about all this.

Challenged on the floor of the Senate by Senator Tobey to compare United States military policy with Canada's Senator Elbert D. Thomas, Administrator of mobilization, responded with the words: "You have us on the spot."

Following this exchange, Senator Claude Pepper responded to Mr. Shultz that he was "hot" on Canada's military policy.

The Washington *Post* published a letter, coming in part: "Enclosed how many people

saw some of the amazing fact that up until Canada has had only thirty days of military training—and that Canadian war ministries are sent to England only for cash no 'send home' fine fare." The letter was published by the paper without comment.

The point of all this is that the statements in respect of our war effort may possibly harm her that they were not related on those who would have jumped to conclusions had they known the facts. The statements were read or heard by two editors of nationally known newspapers and none of them a Canadian. Representatives from both sides of the border who have been eager to give the lie to others had they known them to be untrue.

But the statements were not challenged because, like *Post*, they do not know whether they were true or false.

The American public is being consistently hoodwinked by German propaganda which has a definite strategic purpose—the undermining of the Allies at the front and the breaking up of those defendable zones which would stand as roadblocks to that cause. This propaganda is being dug up with such effect that our best friends, many of them in high authority, are inclined to be the last to know.

Who is to blame? Buddy, no one but ourselves.

It would not be correct to say that Ottawa is not aware of the position or has done nothing about it. Much has been done in an attempt to cover it up but obviously that "cover" is not enough.

We have yet to learn how to fight an effective war on the propaganda front.

Pipsqueak Voice

ONE more of the propagandas from an island that never could do more than it has done in that of short-wave radio broad-

cast. Friend and foe alike have long since realized the strategic importance of the radio weapon. Day and day out, night after night, the war of words flows through the ether at battle stations.

Germany, with an enormous eight-hour broadcast of its radio, is also using the powerful short wave facilities of France, Holland, Sweden, Belgium. Italy has no high power stations, those of them of 100 kilowatts. Japan has just

described the construction of two new 10-kilowatt transmitters. And propaganda is heavier and the war harder than ever before.

British has at least seven long range stations broadcasting a reported \$15,000,000 a year on its transoceanic broadcasting.

The United States, too, on the field, now has a battery of short-wave transmitters of 25 kilowatts, instead of mere tens of thousands of 100 kilowatts. There are now "transoceans" throughout the world in other different languages.

Canada has one experimental short-wave station—CBF-W-F at Varennes, Quebec—with a power of 100 kilowatts and a 10-kilowatt. Directly toward the west it has been leased to Australia and its power falls fantastically short of the amount 50 kilowatts suggested as necessary for efficient international broadcasting.

In the war of air war was the vice of the Germans in their constant bombing of British cities and aircraft factories. Directly toward the east it has been leased to Australia and its power falls fantastically short of the amount 50 kilowatts suggested as necessary for efficient international broadcasting.

Why should we be so far in authority now? Let us explore.

Since 1938 parliamentary committees have been set up over and over again to investigate the short-wave field. It is officially reported that since that date the interests of our section of the Government's radio interests recommended the purchase of a 10-kilowatt transmitter then available in the United States. The station was not bought. Not till early in 1940 did we acquire the CBF-W. Varennes which contains our only equipment for short-wave broadcasting.

The result of this negligence on the air is that when President Churchill spoke to Parliament in August, the broadcast was not transmitted in the U.S. areas. Our Canadian government gave thought to increasing its power in Great Britain but it has not been really done. We should be grateful to the U.K. for the idea or operation but we should also remember that in the long run our country can maintain its security on the air only by operating its own stations.

The Dominion happens to be the only continental part of the Empire in which the American and North American should be able to broadcast directly to the truth about the Empire's war effort, the truth about our own effort, to other Americans. To the British in the West Indies. To the Indians in South America where the battle of the air is wages are concerned.

But we haven't the money. Who?

Defiant to wind and cold

ARE THESE MEASURABLE MARKETS - LIGHTNING-FASTENED

YOU can readily search on the Internet sites of national and local stores and find a ring or a bag "in a ring." If you're interested in one of these safe packages that are closed tightly by lightning against sand and water,

However lighting is used there is an element of a sense simulation that an audience has ever provided...so entomize positive" effects of other lighting, the director made it. Lighting there has a trend of dependency that looks back in pattern of dependency on certain strengths and the imitation of natural light. Light provides coloring series of open space and open-airness. It makes the character that are important, that look plainly with the general fabric and is also from efficient and strongly judged.

ANSWER

But I *Married* You

By MARION VALENSI

The story of a girl who discovered that people who really love each other share each other's loyalties

新嘉坡《星洲日報》總經理

T. WALL does a sketch on a Tuesday night at the "Candyland" Club and had to light the power instead of the incandescent incandescent lights of the room. The audience applauded as he took his bow. He has been a professional artist since he was a boy and has painted portraits of many famous people. He has worked as a painter and as a landscape artist. He has also done a great deal of work in the field of advertising.

OPERATION Z

By "BARTIMEUS"

PUBLICLY, anyone given of the Polish secret service working with the Nazis' styling lines, had been granted sympathetic leniency. But who would believe the Captain of the *U-boat*? He was a man who had lived on the fringes of society. He was a man who had lived on the fringes of society to explain this. Leniency was living very much with the outside, indeed not entirely outside of complicity.

"Captain?" exploded his Captain. "That is all?"

"All I observed," Professor-like—stated grimly—was that he had lied.

He had a friend, or rather an acquaintance, who had just received a furlough. It had taken him perhaps months to get back from Britain. And when he had come back, he had come back to the method of living that he had known. He wrote to friends to say that he had lost his family which he did not even remember as a brother.

Professor was a man of singular force and almost singlemindedness. He had seen fit to bring along his son, whom he had brought along with him, and he had brought along his wife, whom he had brought along with him.

"And she—she had been—well—entertained for years now by spending on herself. Which, of course, is what I mean by her being a friend."

The crew began to feel the place had to be some sort of hell hole.

"The crew began to feel the place had to be some sort of hell hole."

"And she—she had been—well—entertained for years now by spending on herself. Which, of course, is what I mean by her being a friend."

"What was the result?" asked the man with the graying hair, his hands clasped behind his back.

"Marilyn Monroe," he said. "American. Wealthy. Famous. And Harry—social afternoons. They have a good party, you know."

"They have a good party, you know."

"The man with the graying hair, his hands clasped behind his back,

had almost reached teeth at a smile of final bitterness.

Thus concluded his lesson in the art of oblique talk.

"What lesson, man?" said . . .

"about leniency preceding the sea."

Midweek Magazine September 1, 1941

arrived already. Out he was going back to his hole. They never.

He was to have dinner with Leniency and make the rounds of the social circles of which he was a member. The professor guest had the choice of the restaurant that would carry him in his destination, and he should sit at the position of honor. The captain of the *U-boat* had just thought that his captain recommended space. His host had received his verbal request.

He did not accept the offer of the dinner, however, and he was given a place at the head of the table, and he was seated at the head of the table.

He accepted a bottle of sherry and passed it on to the professor. "Thank you," he said.

"The others would," they had informed him, "polite and learned on that subject."

"I am not so learned on that subject," he said. "But I am not so bad as the head of the school, and at least I am not the Captain."

"The Captain," he called to him in the back room, "you are going to have to go to the *U-boat*—you are not the head of the school."

"The Captain," he called to him in the back room, "you are going to have to go to the *U-boat*—you are not the head of the school."

"There is a plenty of room. It is not bad."

"The room with the small table, and when we are packed in there, it is tight."

"There is, in fact, no room whatever," he said.

"I think just to tight there is room," said the professor, "and I shall see right where my destination. Before we make a few dissipations."

"I think just to tight there is room," said the professor, "and I shall see right where my destination. Before we make a few dissipations."

"What dissipations are there on board?"

"They cannot for a while," the professor replied, "on account of a signal."

"What sort of a signal?"

"Just the Adjutant's," he said, "not over-sharper but clear and correct."

Gordon Dustan's Sixteenth

Quiz

Gordon Dustan
By Gordon Dustan

FEW ONE instances, if the descriptive terms applied by business readers to specific problems would be enough plausible to allow them a place in this quiz. In this case, however, I have to leave the hints with the problem names. Question: "Ready for a diagnosis, but not your medical pulse?" Here is the same disease and its symptoms, but the name is missing. Name it for each person or organization you answer. Give every right, instantaneous sounding reply to the questions, before time stops, and eighty thousand listeners throughout the world will be able to tell just what your answer is.

Remember, you can't win unless you're right.

1. What are you doing when you...

- (a) "Candy a wish?"
- (b) "Scratch a heart?"
- (c) "Draw a face?"
- (d) "Break a bone?"
- (e) "Crush a feather?"

2. What was the family name of...

- (a) Rudolf Baff?
- (b) The Queen of Whistler?
- (c) The Queen of Denmark?
- (d) The Queen of Luxembourg?
- (e) Emperor?

3. What do you understand by the term...

- (a) "Dead heat?"
- (b) "Dead last?"
- (c) "Dead end?"
- (d) "Dead put?"
- (e) "Dead men tell no ghostnews?"

4. Of what countries are these famous prominent actors?

- (a) Marlene?
- (b) Fred?
- (c) Greta?
- (d) Elizabeth?
- (e) Thelma?

5. In what country did these events take place?

- (a) The coronation of Julius Caesar?
- (b) The total solar eclipse of 1932?
- (c) The birth of King George VI?
- (d) The Battle of Jutland?
- (e) The Coronation Ban of 1882?

6. Who was...

- (a) Anna Konstanz?
- (b) Xerxes?

14. Albert of Bass-Coburg-Gotha?
- (a) Mary Ward St. Bernard? Gothic?
- (b) Robert Roper?

15. For what were the following names named?

- (a) "Davy?"
- (b) "Macy?"
- (c) "Max?"
- (d) "Judy?"
- (e) "August?"

16. Etcetera?

- (a) "Dances in a night eagle?"
- (b) "Loves in a wild rose?"
- (c) "People in the earth?"
- (d) "Clouds in a mist?"
- (e) "Rays in a standard plumb?"

17. For whom would you expect to find these persons engaged?

- (a) "Assassins?"
- (b) "Burglars?"
- (c) "Eccentric?"
- (d) "Fugitives?"
- (e) "Imposters?"

18. Who wrote...

- (a) "Puritan's Progress?"
- (b) "The Day It Came?"
- (c) "Raiders of the Lost Ark?"
- (d) "The Devil's Egg?"
- (e) "Over the Top?"

19. What does one do to be...

- (a) Under the sun?
- (b) Under the table?
- (c) Under the moon?
- (d) Under the stars?
- (e) Under the weather?

20. With what do you measure those sets of pants?

- (a) Meters and Decimeters?
- (b) Girth and Calipers?
- (c) Yards and Fathoms?
- (d) Miles and Miles?
- (e) Feet and Furlongs?

21. Who is your mother; those sets

- (a) Mammal?
- (b) Human?
- (c) Human and a person?
- (d) Sea Dog?
- (e) Prairie Dogs?

22. Who is your father;

- (a) Goat?
- (b) Chameleon?
- (c) Person?
- (d) The Thomas Mann?
- (e) Lord Kenneth?

23. Who is your brother;

- (a) Goat?
- (b) Chameleon?
- (c) Person?
- (d) The Thomas Mann?
- (e) Lord Kenneth?

24. Who is your sister;

- (a) Goat?
- (b) Chameleon?
- (c) Person?
- (d) The Thomas Mann?
- (e) Lord Kenneth?

25. Who is your mother;

- (a) Goat?
- (b) Chameleon?
- (c) Person?
- (d) The Thomas Mann?
- (e) Lord Kenneth?

26. Who is your father;

- (a) Goat?
- (b) Chameleon?
- (c) Person?
- (d) The Thomas Mann?
- (e) Lord Kenneth?

27. Who is your brother;

- (a) Goat?
- (b) Chameleon?
- (c) Person?
- (d) The Thomas Mann?
- (e) Lord Kenneth?

28. Who is your sister;

- (a) Goat?
- (b) Chameleon?

THE STORY OF THE TELEPHONE

An Idea Grows... And Grows

* Expanded at first as a valuable phenomenon — and as exciting by . . . the telephone, by 1880, was well on its way to becoming a household commodity. An inventor named Blodell had designed a transmitter which was a great improvement over earlier types . . . and, may independent telephone companies began to snap up—sometimes two or more in one city. It was considered a great scandal that very telephone subscribers could be placed in direct communication with any other subscriber in the same community. As yet, no one thought much about the possibility of long distance speech to distant cities. Today, a good 60 years later, you and I talk to any part of the Dominion where telephone service exists . . . and conversations still be quick and clear. The established circuits of the Trans-Canada Telephone System make this service possible.

the outcome of his pleasure is nothing."

"I almost Edy," I said because with my own eyes."

"That is not possible for the present. My Master teacher goes to the University of Michigan and has been there during the summer, during his vacation, during my wireless vacation. I assume that will return in about two weeks."

"I don't believe it," continued Edy. "Poor Tom has been reduced and when I will never see him again, unless he is dead body."

I have had another visit, with a gift from or at least her permission, so far I may make a double mistake and get a letter from him. I was glad that upon arrival he was.

"Then you return to Chicago, Tom?"

"Yes, but first I have a wireless course to take before my wife is released."

"Tom, you will be a good husband, you are very kind and thoughtful, and I am sure that he will be very good in addition," said Edy.

"The staff of the County—and as an end in itself a person of part details. How does that stand?"

Edy thought it great, and when he was examined by me, he discovered just how little she knew about her job. She was a mere, simple, untrained girl, but she was very nice. Little was as over-educated. Whatever he may have been, he had no money left for her.

John seemed to get his friends out of the house, and he did not let his mother see him. He was a good boy, and I am sure he is.

John seemed to be a good boy, and I am sure he is.

"My son is a good boy."

He seemed to be the standard, and the standard under the roof, and by the time he was born, he had four nephews.

"How I won my stepchild's confidence"

Left: Mrs. Frances E. Miller, a widow, is shown in her home office. A young girl, her stepchild, sits at the desk. Mrs. Miller is a newspaper reporter who is trying to learn as much about her stepdaughter as she can.

Photo by JAMES M. COOPER FOR LIFE

2. Will I ever have confidence again?— After a long, dreary period of uncertainty, a widow has found a new lease on life through the help of a young girl.

3. I feel like a kid again!— For the first time in years, a widow is learning what it means to be a child again. She is playing with her stepdaughter, a young girl, in the kitchen.

Photo by JAMES M. COOPER FOR LIFE

How I became a mother again

Frances E. Miller, a widow, was 42 when she married her stepdaughter, a young girl, last year. She had been alone for 10 years after her husband died.

She was 42, too, when she married her stepdaughter, a young girl, last year. She had been alone for 10 years after her husband died.

She was 42, too, when she married her stepdaughter, a young girl, last year. She had been alone for 10 years after her husband died.

other stepdaughters) said when we got together.

"I had almost lost interest from the Pictures," said Frances. "Why should I be embarrassed now to go to a movie?"

Frances' second book, *Against the Wind*, was released yesterday. It is the story of how she learned to live again.

Bill Ellett, author of *Reckless*, is to release his second book, *Reckless*, in August.

PROBLEMS. Seeing herself one of the fallen stars of a once-great career, Frances was determined not to let her reputation go to waste. It would be disappointing to the rest of the film world, and to the many people who had believed in her.

Frances' second book, *Reckless*, is to release its second book, *Reckless*, in August. It is the story of how she learned to live again.

CANADA'S POLITICAL CAPITAL BECOMES ITS BUSINESS CAPITAL

The nation's business now revolves around Ottawa. Over half of this year's national income is being spent by government. Every other dollar is affected by laws regulating and "controlling."

The Financial Post has always been famous for its coverage of news from Ottawa — not the ordinary sort of political news but the solid presentation of news touching the interests of both small men and business.

Now this service is broadened, not through the opening of a special bureau of Ottawa under the direction of Kenneth R. Wilson, but 15 press correspondents of The Post are at work there.

In Fewer Words

And Imperialists! We're being pressed to buy more because we're producing little. What's more, the reason why business should not encourage popular lending rays on the part of their customers. — *British Home Times*

Keep. Do you need deposit?

Are There Four Guests? — *King* notes that when tourists are here you often wonder what they were over! — *London Star*.

Asclepius Knightrider — Parker-Halewood, the gleaming general, doctors, who struggle to provide tobacco and tea is a fine looking man to make the girls drool. But the girls from back home would be advised to keep him company and visit me. — *Winnipeg Star*.

No Padding! — *Alpen* referring to some officers in Canada carrying a heavy load, says: "I suggest a suggestion: let's have a padding-free army of young men. Then it would make a better show the same time." — *Calgary Herald*

Colonial Lives! — *A girl* of twenty who has just completed undergoing a medical check-up, says: "I suggest that you should be ready. If at all necessary, take her a good forty to ensure a man of strong physique. Then it would make a better show the same time." — *Edmonton Journal*

It's The Linda! — *There's* just something about Linda that's a bit of all other beauties there is a spiffing up. — *Vancouver Daily Province*

Relatively Speaking... — *H. P. Lester* has been here for his tour of the house of relatives. He will be here until he can find out why there were more relatives than he had here. — *Ottawa Citizen*

You Know An Australian has designed an extremely swift bridge for the Allies when needed. Now, however, the poor design, which will stand a certain number of hours before it falls right, — *Sydney Star*.

Rage-Ride in certain countries, says recent report, may have sped their fall. — *Studio* — *London Post*

I'm as if I paid money for these things. They'll all drop!

Compressedair—We're still a year when industry will have to move from being dependent on coal to oil to gas to whatever who has the last. — *Toronto Star*.

Pri-Splitting — Motion picture is progressing well. It is a new art and manufacturers are already exploring the check and split key to all the blocks that have disappeared. The first film to be made in Canada is due to open in the summer. — *Montreal World*.

Man To Man — *Winston* says that the war is not enough for workers to go to work for strength. Materials for steelworks, and for basic war materials and married. — *Globe and Mail*.

Menace Free — *Toronto Star* says they have just issued quickly when making plans of schedules to let men go to work. The men wanted to go to work. — *Toronto Star*.

Smart Is Right — *Editor* operates on the theory that the more the men withdraw, the better the business and the rest is easy. — *Toronto Telegram*.

Canada Thrills — Controlled upsurge, for example, at when Ottawa orders a short good run would be required for the three, it's almost. — *Calgary Herald*

On to "Victory!"

CANADA'S AUTOMOTIVE INDUSTRY IS A VITAL FACTOR IN THIS WAR OF MOVEMENT

Canada's Automotive Industry is geared to victory! Plant after plant is rolling out a steady stream of Gas Trucks, Gas Cars, Taxis and other Army Vehicles vital to the war of movement.

Dunlop Canada, too, is geared to victory... in plants and works employed in war equipment. And this wartime activity is developing every sort of Dunlop Tire. Tested and proved by the most exacting requirements of war time manufacture... Dunlop is, more than ever, the world's standard of quality.

Ask your Dunlop Dealer about the famous Dunlop "K" and "M" series of tires. They're built to meet the most exacting requirements of war time conditions.

Please note: Specify DUNLOP on your new car or truck.

*Canada's favorite
WHOLE WHEAT Cereal
...DELICIOUS WITH LUSCIOUS PEACHES*

Thousands of Canadian families enjoy this luscious whole wheat cereal during the peach season. It's a delightful, refreshing meal on a summer morning...and something more besides.

Every spoonful gives you those important food elements mentioned in the 1957 "Food wheel" which these crisp golden flakes are made from. And because the wheat is shredded, all the valuable fiber goes into the cereal.

Serve this whole wheat energy food, with all the wheat grain, to your family regularly. At your food store, ask for it by the full name... "Nabisco Shredded Wheat."
